RESEARCH INTERESTS

My research interests center on psychological mechanisms underlying behavior change, particularly how motivational processes from a self-determination perspective and self-regulatory processes (e.g., metacognitive regulation) jointly help initiate and sustain physical activity, and when and how physical activity habits form across the lifespan. I am also interested in translating these mechanisms into scalable, theory-informed digital support that integrates ecological momentary assessment and intervention.

EDUCATION

M.S. in Physical Education Sep 2021 – Aug 2023
Department of Physical Education
Chonnam National University, Gwangju
GPA: 4.5/4.5
Thesis: *Relationship between Metacognition, Sport Psychological Skills, and Performance Competence in Adolescent Football Players*
Advisor: Dr. Saengryeol Park

B.Ed. in Elementary Education Mar 2017 – Feb 2021
Department of Physical Education
Gwangju National University of Education, Gwangju
GPA: 3.45/4.5
Physical Education Coursework GPA (29 credits): 3.86/4.5

RESEARCH EXPERIENCE

Graduate Student Researcher Sep 2021 – Jul 2023
Sport and Exercise Psychology Lab, Chonnam National University, Gwangju

- Project: **Development and Evaluation of Rehabilitation Exercise and Sports Programs based on the STEP Model** (Funded by Ministry of Health and Welfare; Ministry of Education of the Republic of Korea; and the National Research Foundation of Korea)
    - Conducted a comprehensive literature review of physical activity interventions for people with disabilities to identify limitations of existing exercise interventions

  - Co-developed a STEP model-based rehabilitation exercise program and workbook integrating theory-informed behavior change techniques (e.g., goal setting, action and coping planning, self-monitoring)
  - Co-designed the features and content of a mobile application for participant management and delivery of video-based rehabilitation content
  - Recruited 108 participants with disabilities (physical disability, brain lesion-related, and hearing impairments); coordinated enrollment, retention, data collection, and both in-person and online exercise intervention delivery
- Project: **DB Construction and Development of Intervention for Exercise Promotion of People with Mental Health Problems (**Funded by National Research Foundation of Korea)
  - Co-designed the content structure of an EMA-based mobile application combining Fitbit data with app-based self-reports (e.g., physical activity, basic psychological needs, and self-control), including selection of validated measures and compilation of required Fitbit API specifications
  - Recruited participants and managed the initial phase of data collection

PROGRAM DEVELOPMENT

Program Developer

Department of Physical Education, Chonnam National University, Gwangju

- Developed Neulbom programs (Korea's national after-school program) commissioned by the CNU RISE (Regional Innovation System & Education) Project Group; delivered training workshops for regional instructors
    - *One Step Healthy Playground* (2026 Neulbom Think Tank University, Jun 2026): A 20-session play-based physical activity program for lower elementary students (grades 1–2) targeting muscular strength, balance, fine motor skills, and cognitive engagement
    - *Creative Character Exploration Classroom* (2025 Neulbom School Program, Dec 2025): 4 of 20 physical education sessions for upper elementary students (grades 5–6) using beginner-friendly, play-based basketball and taekwondo activities

TEACHING EXPERIENCE

Mathematics Instructor May 2026 – present

Sunarae Mathematics Academy, Naju

- Teach middle school students covering middle- to high-school-level mathematics

Part-Time Elementary Science Teacher Mar 2026 – present

Wolbong Elementary School, Gwangju

- Teach sixth-grade science and develop curriculum-aligned instructional materials

MILITARY SERVICE

Personnel & Education Administration Specialist Aug 2023 – May 2025

Plans Division, Headquarters, Republic of Korea Air Force 1st Fighter Wing, Gwangju

- Served as a senior enlisted airman representative within 1st Fighter Wing Headquarters, carrying out squad-leader responsibilities
- Discharged as Staff Sergeant (E-5) after completing 21 months of mandatory military service

ACADEMIC SERVICE

Graduate School Student Committee

CNU Graduate School Curriculum and Academic Management Committee Sep 2022 – Jul 2023

- Served as the only non-STEM student representative on the Committee

SKILLS

- **Statistics**: Regression, mediation analysis (PROCESS), CFA, cluster analysis (SPSS, AMOS, SAS)
- **Research Skills**: Literature review, participant recruitment, intervention delivery, health-related fitness assessment

LEADERSHIP AND CERTIFICATIONS

- Elementary School Teacher (Grade 2), *Ministry of Education, South Korea*
- Sport Mental Coaching Level 2, *Korea Mental Coaching Center*
- Taekwondo 3rd Dan Black Belt; President, Undergraduate Basketball Club
